Here we're testing the motors and rotor blades to ensure performance

En grönare skog som håller

AirForestry

Inga stickvägar

-> mer plats åt skogen

Inga kallhyggen, behålla sly och andra träd

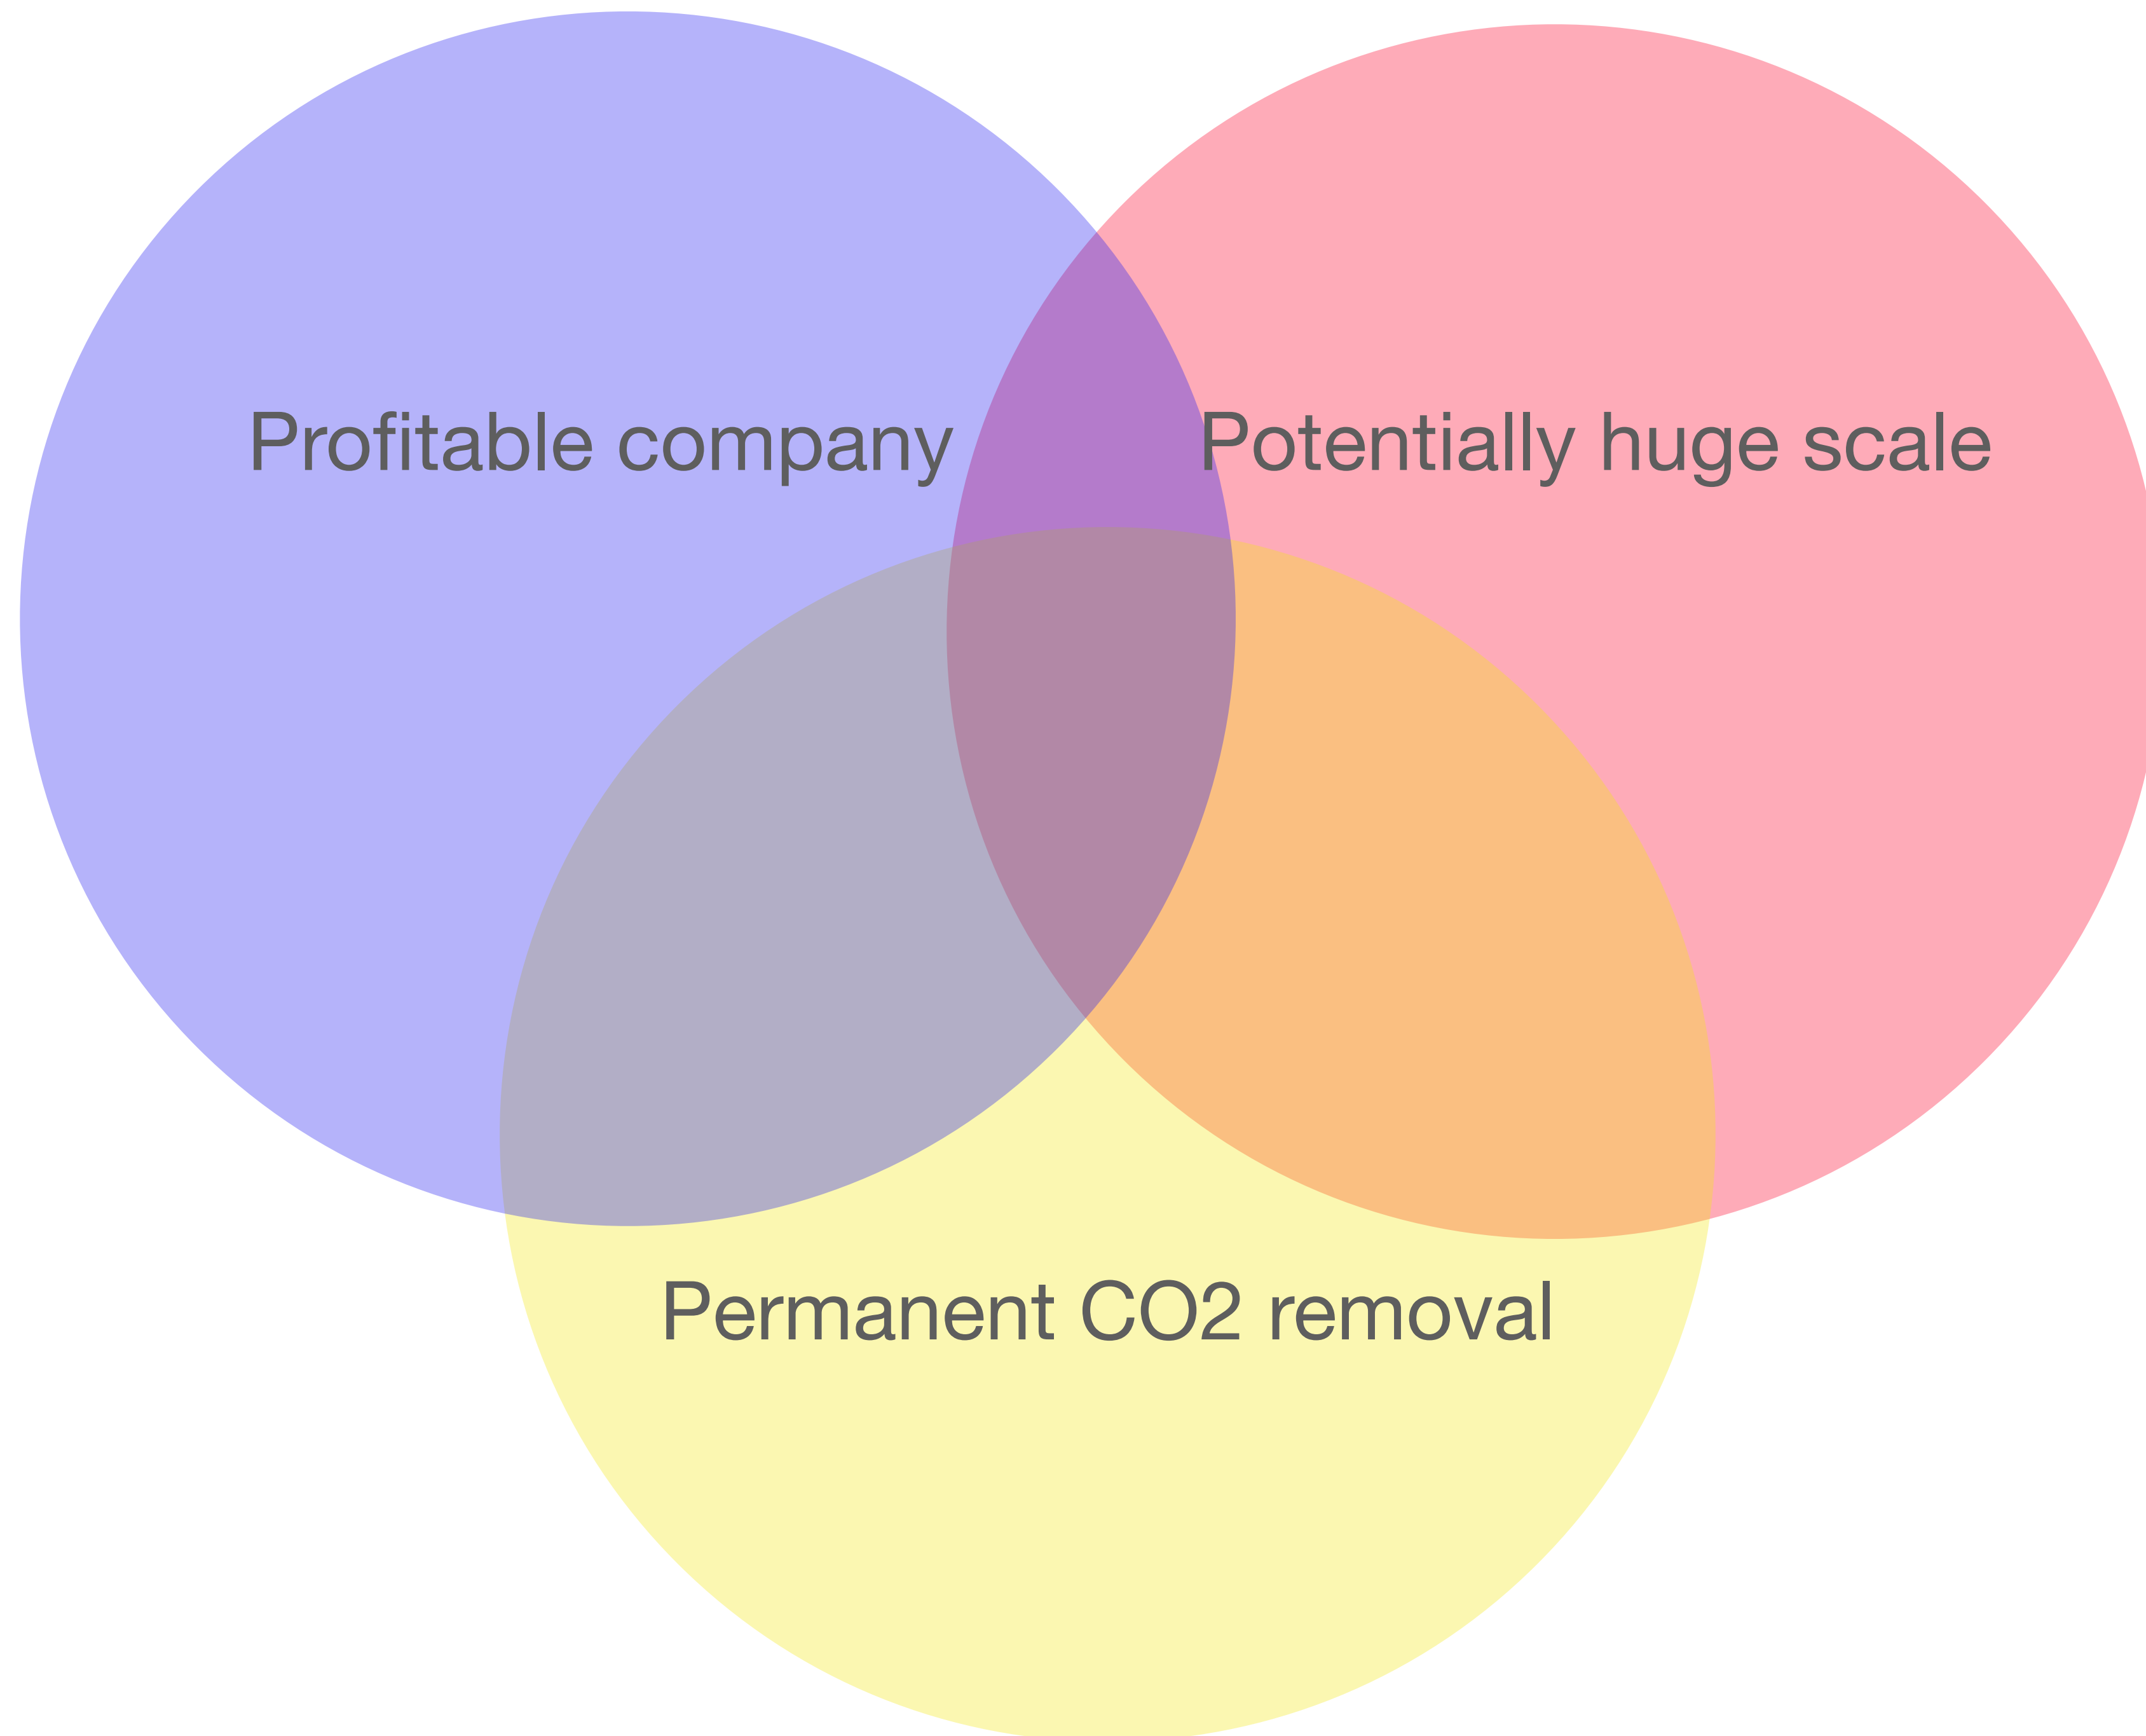

-> biologisk mångfald.

Plocka bort sjuka träd

-> minskade skogsbränder

Forma framtidens skog ett träd i taget

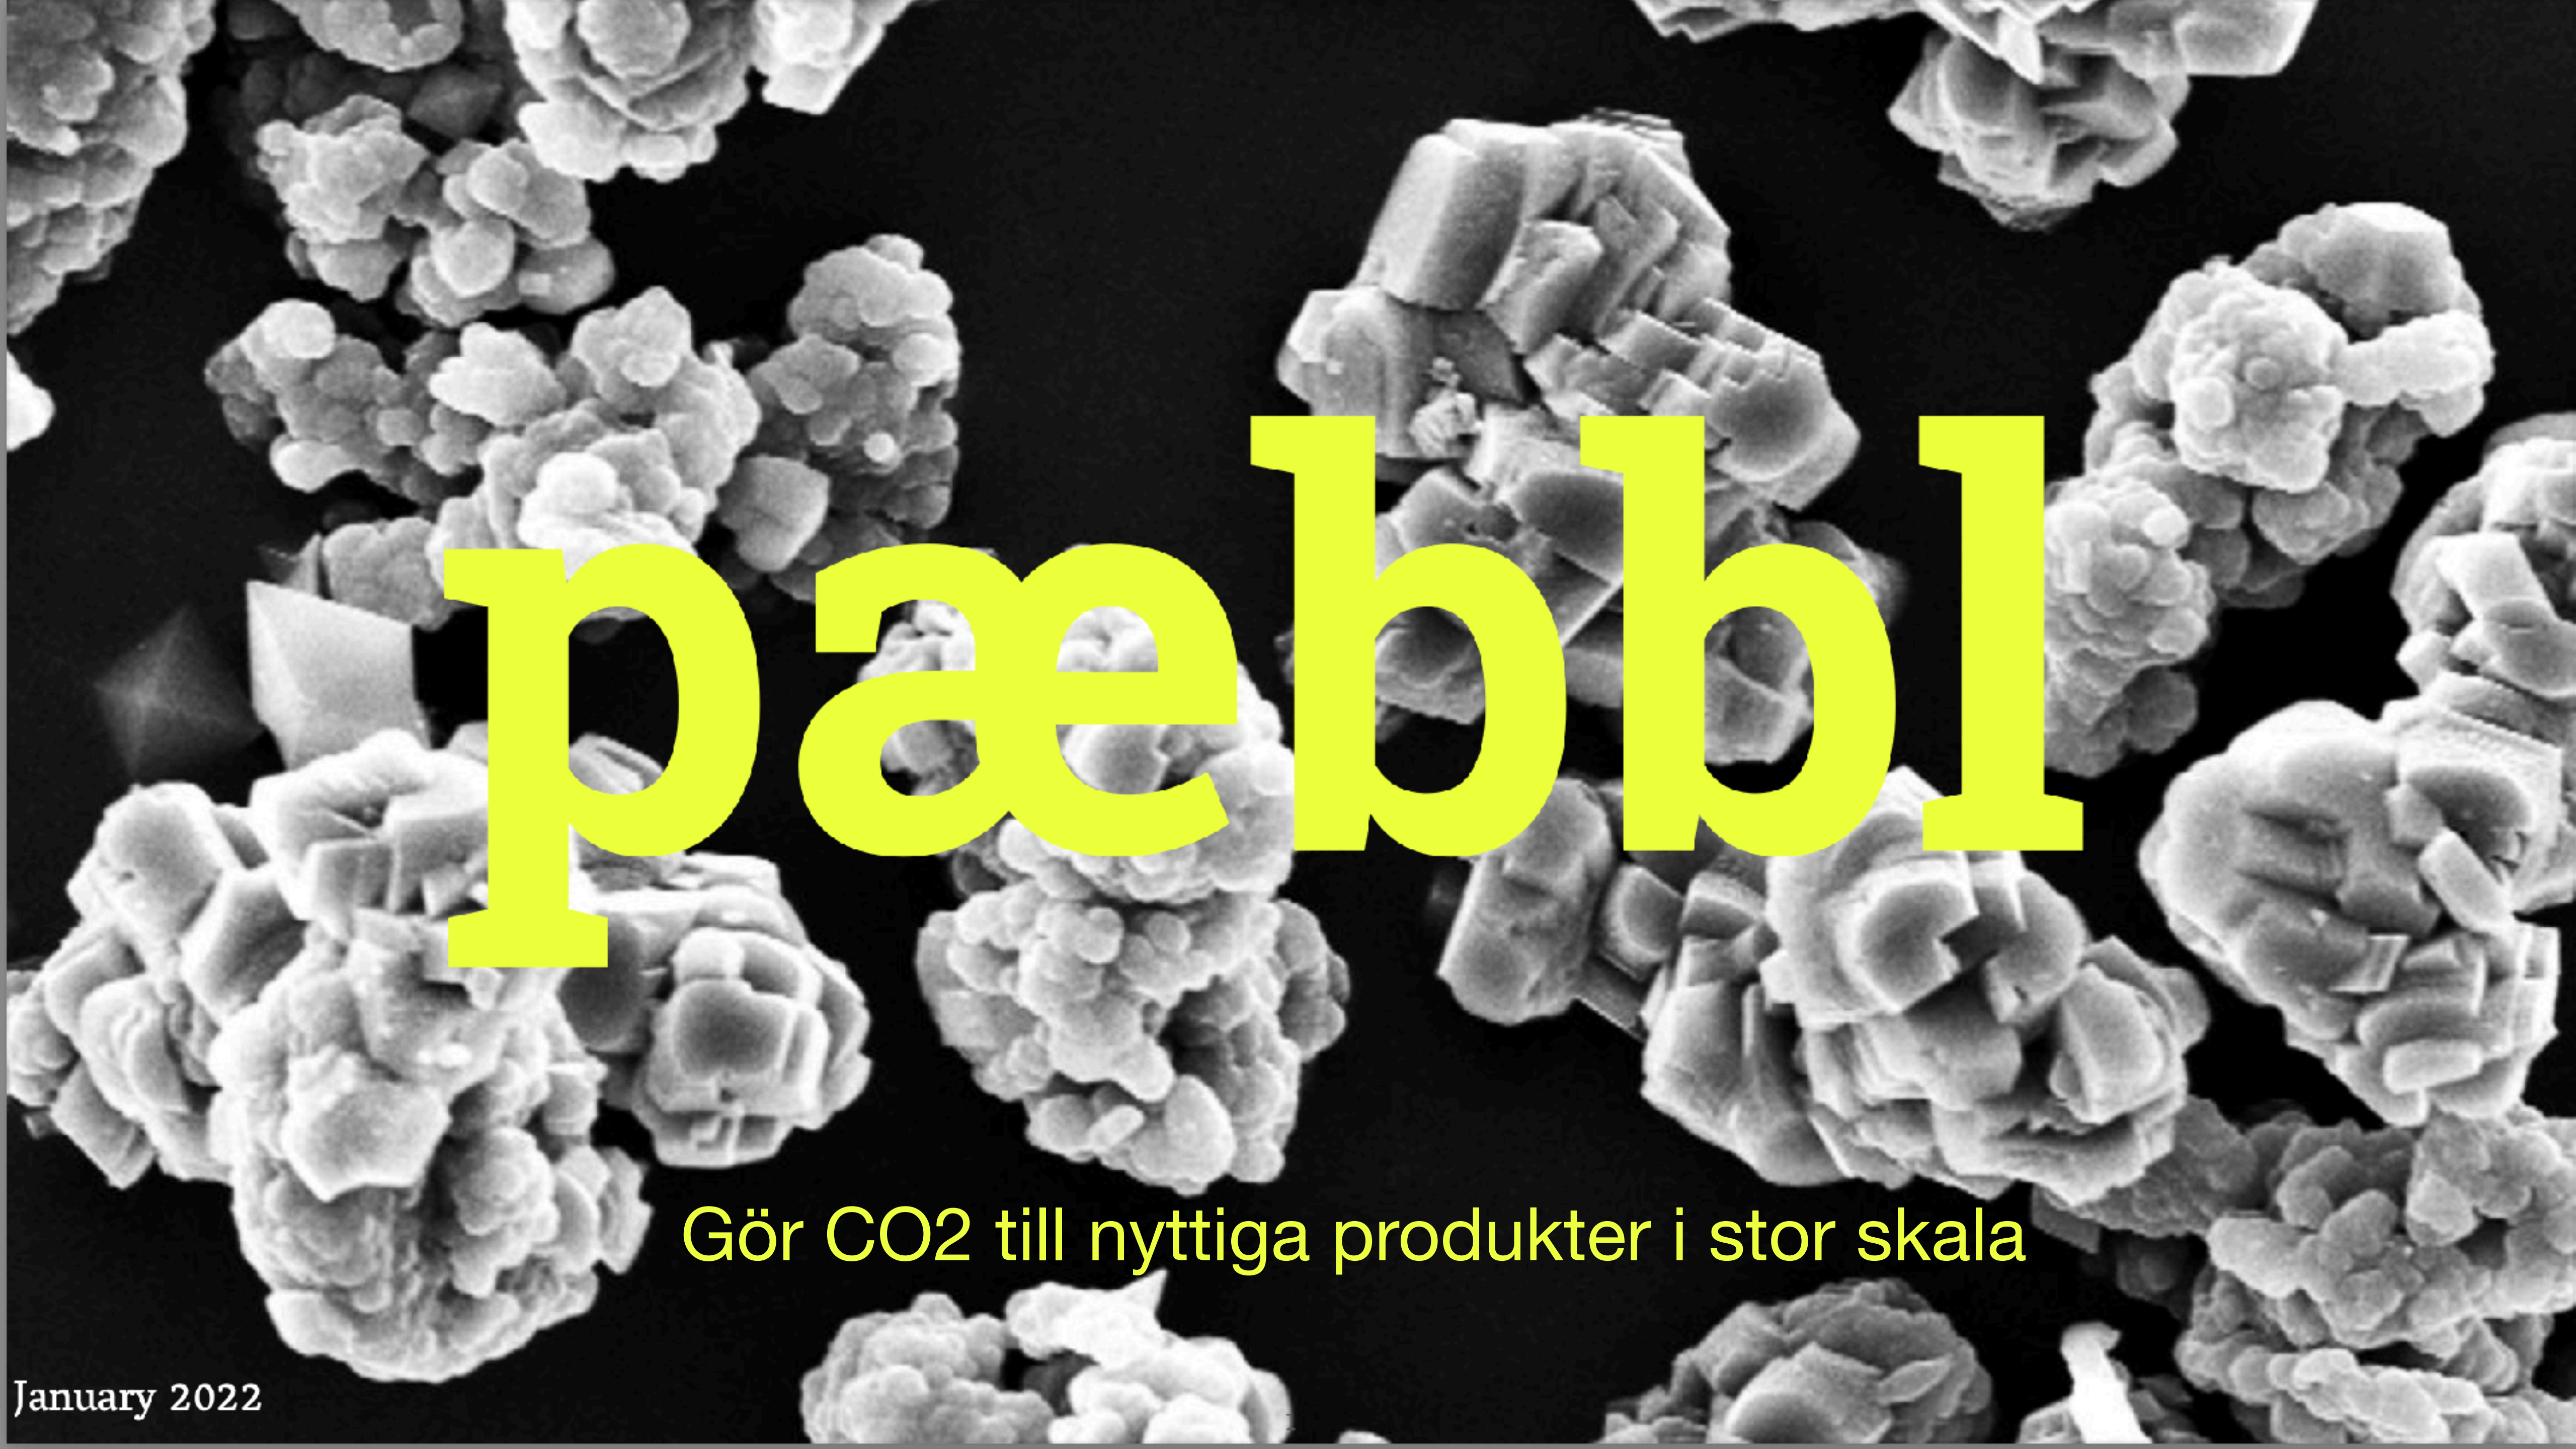

-> skog som håller för klimatförändringar

Profitable company

Potentially huge scale

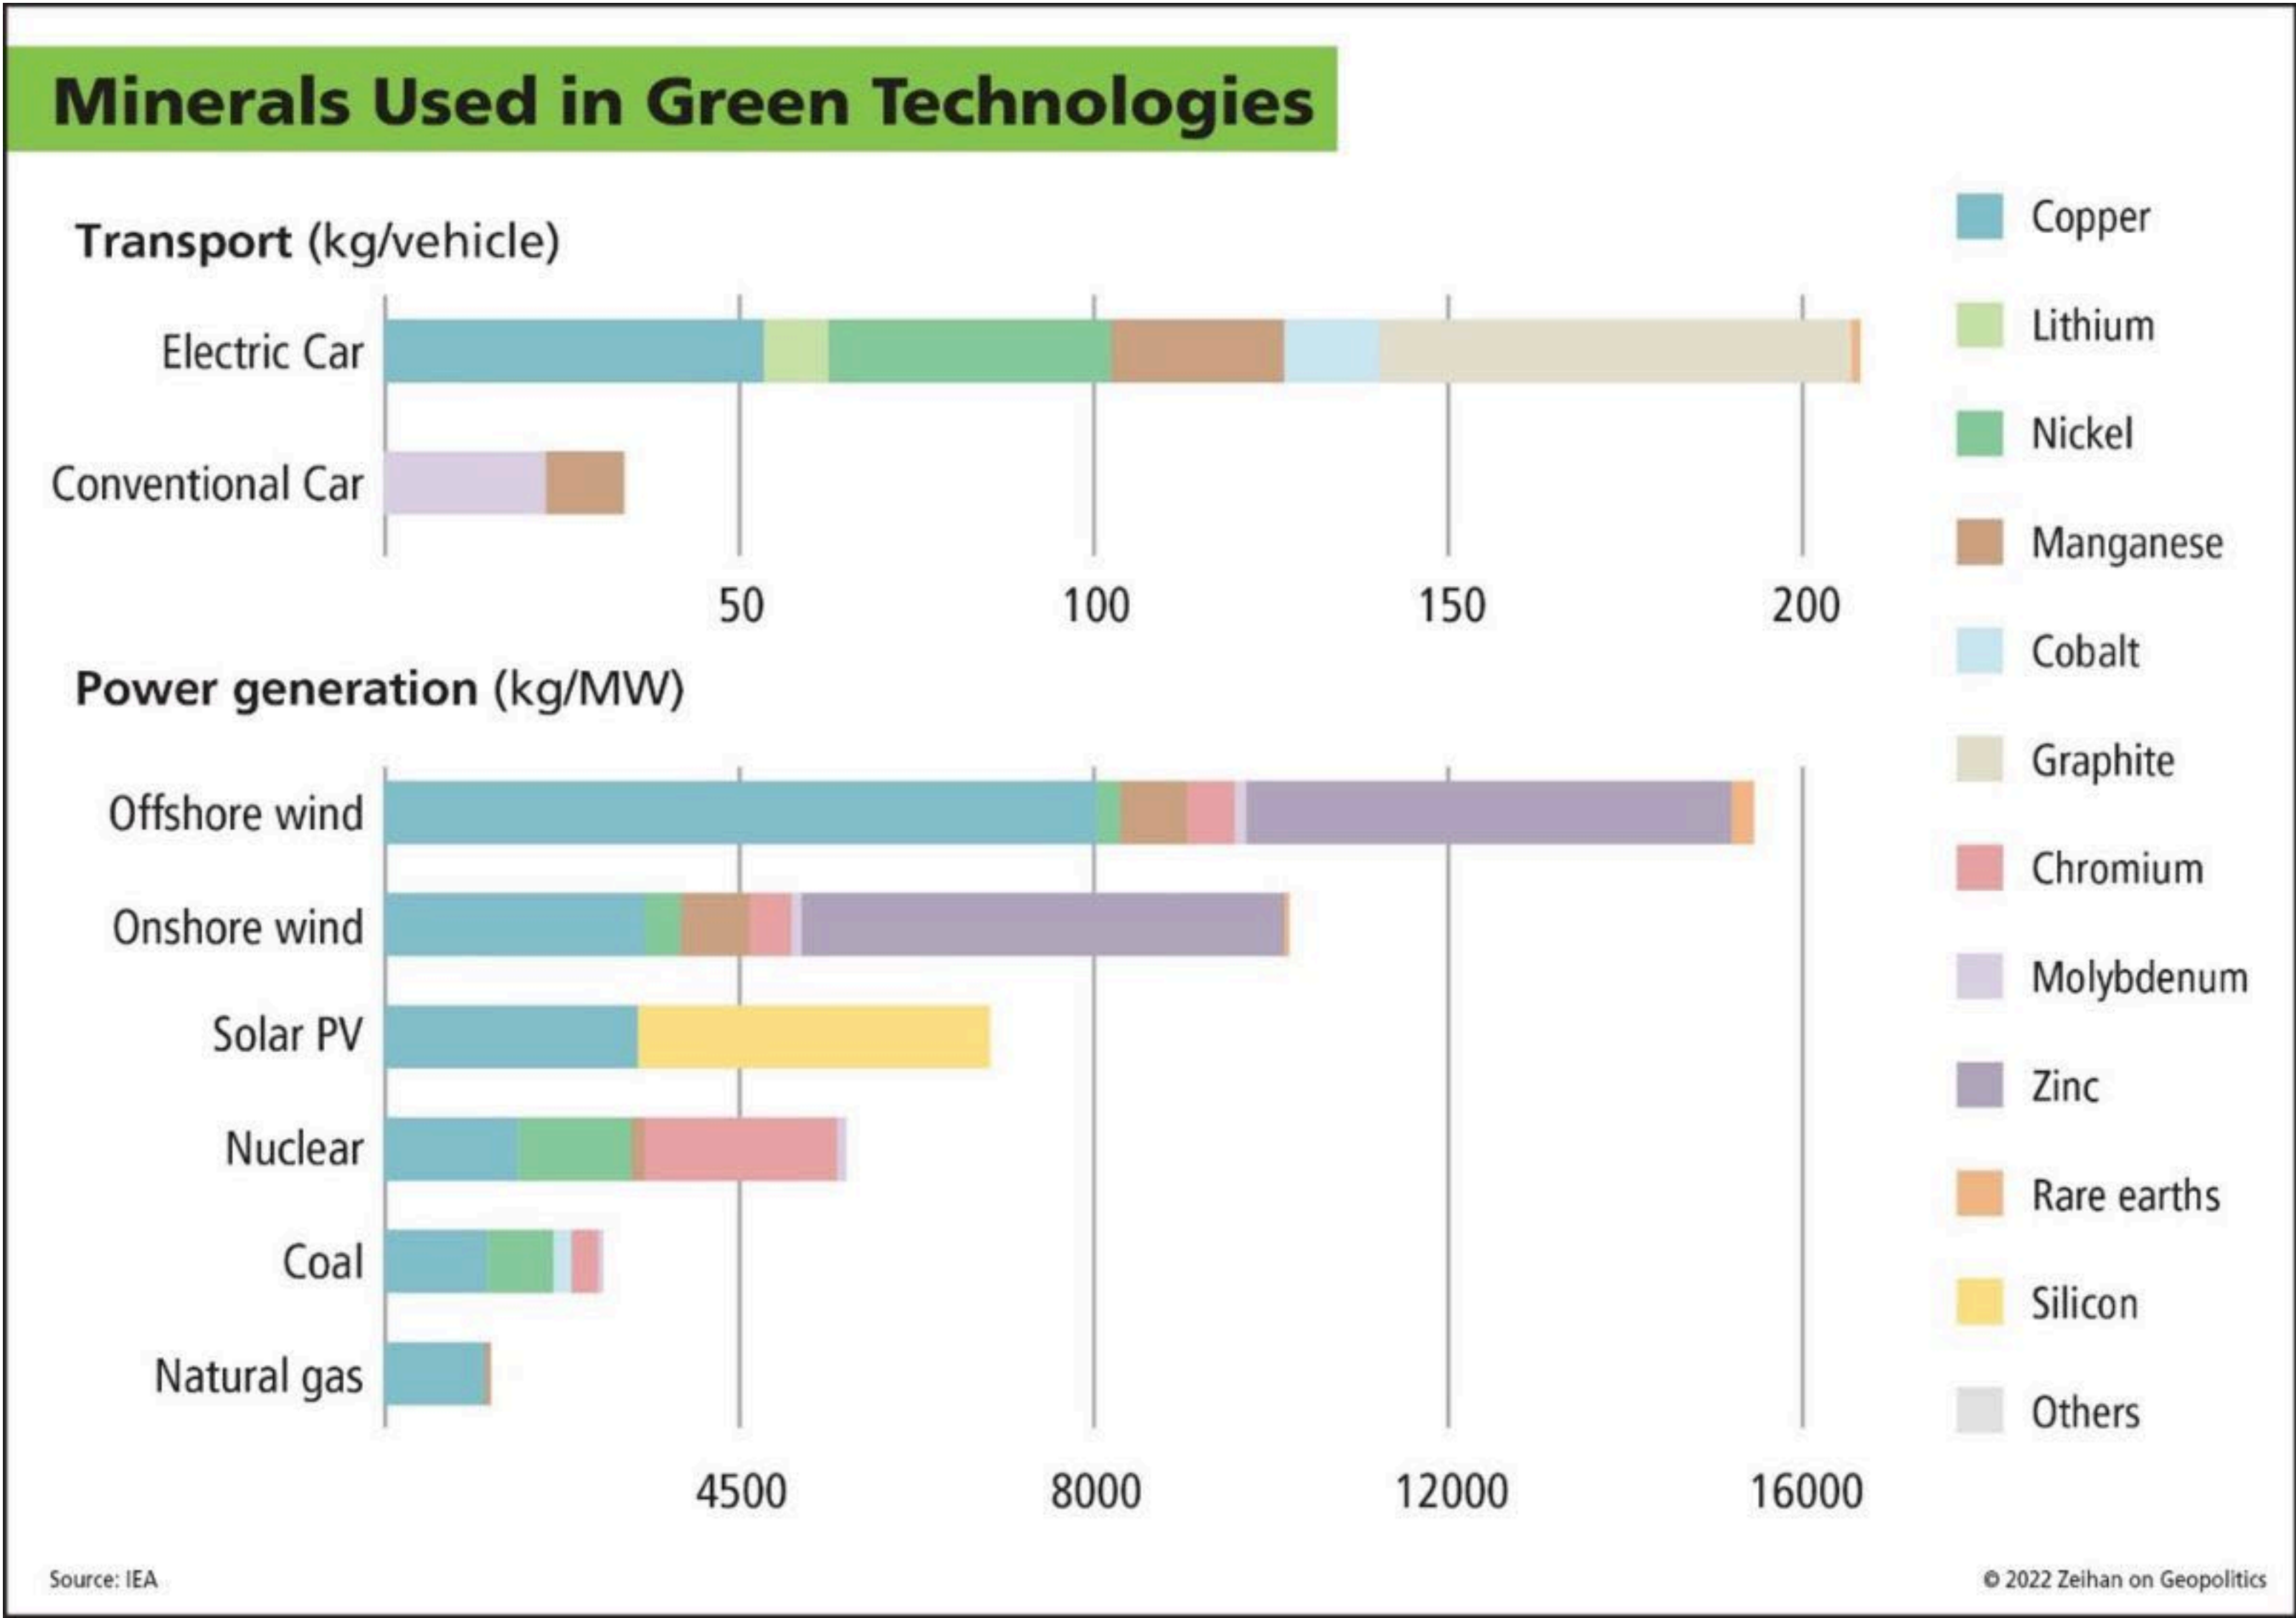

Permanent CO2 removal

A scanning electron micrograph (SEM) showing a dense collection of mineral particles. The particles exhibit various shapes, including clusters of small spheres, larger angular crystals, and some elongated, needle-like structures. The background is black, highlighting the intricate textures and three-dimensional forms of the minerals.

paebi

Gör CO₂ till nyttiga produkter i stor skala

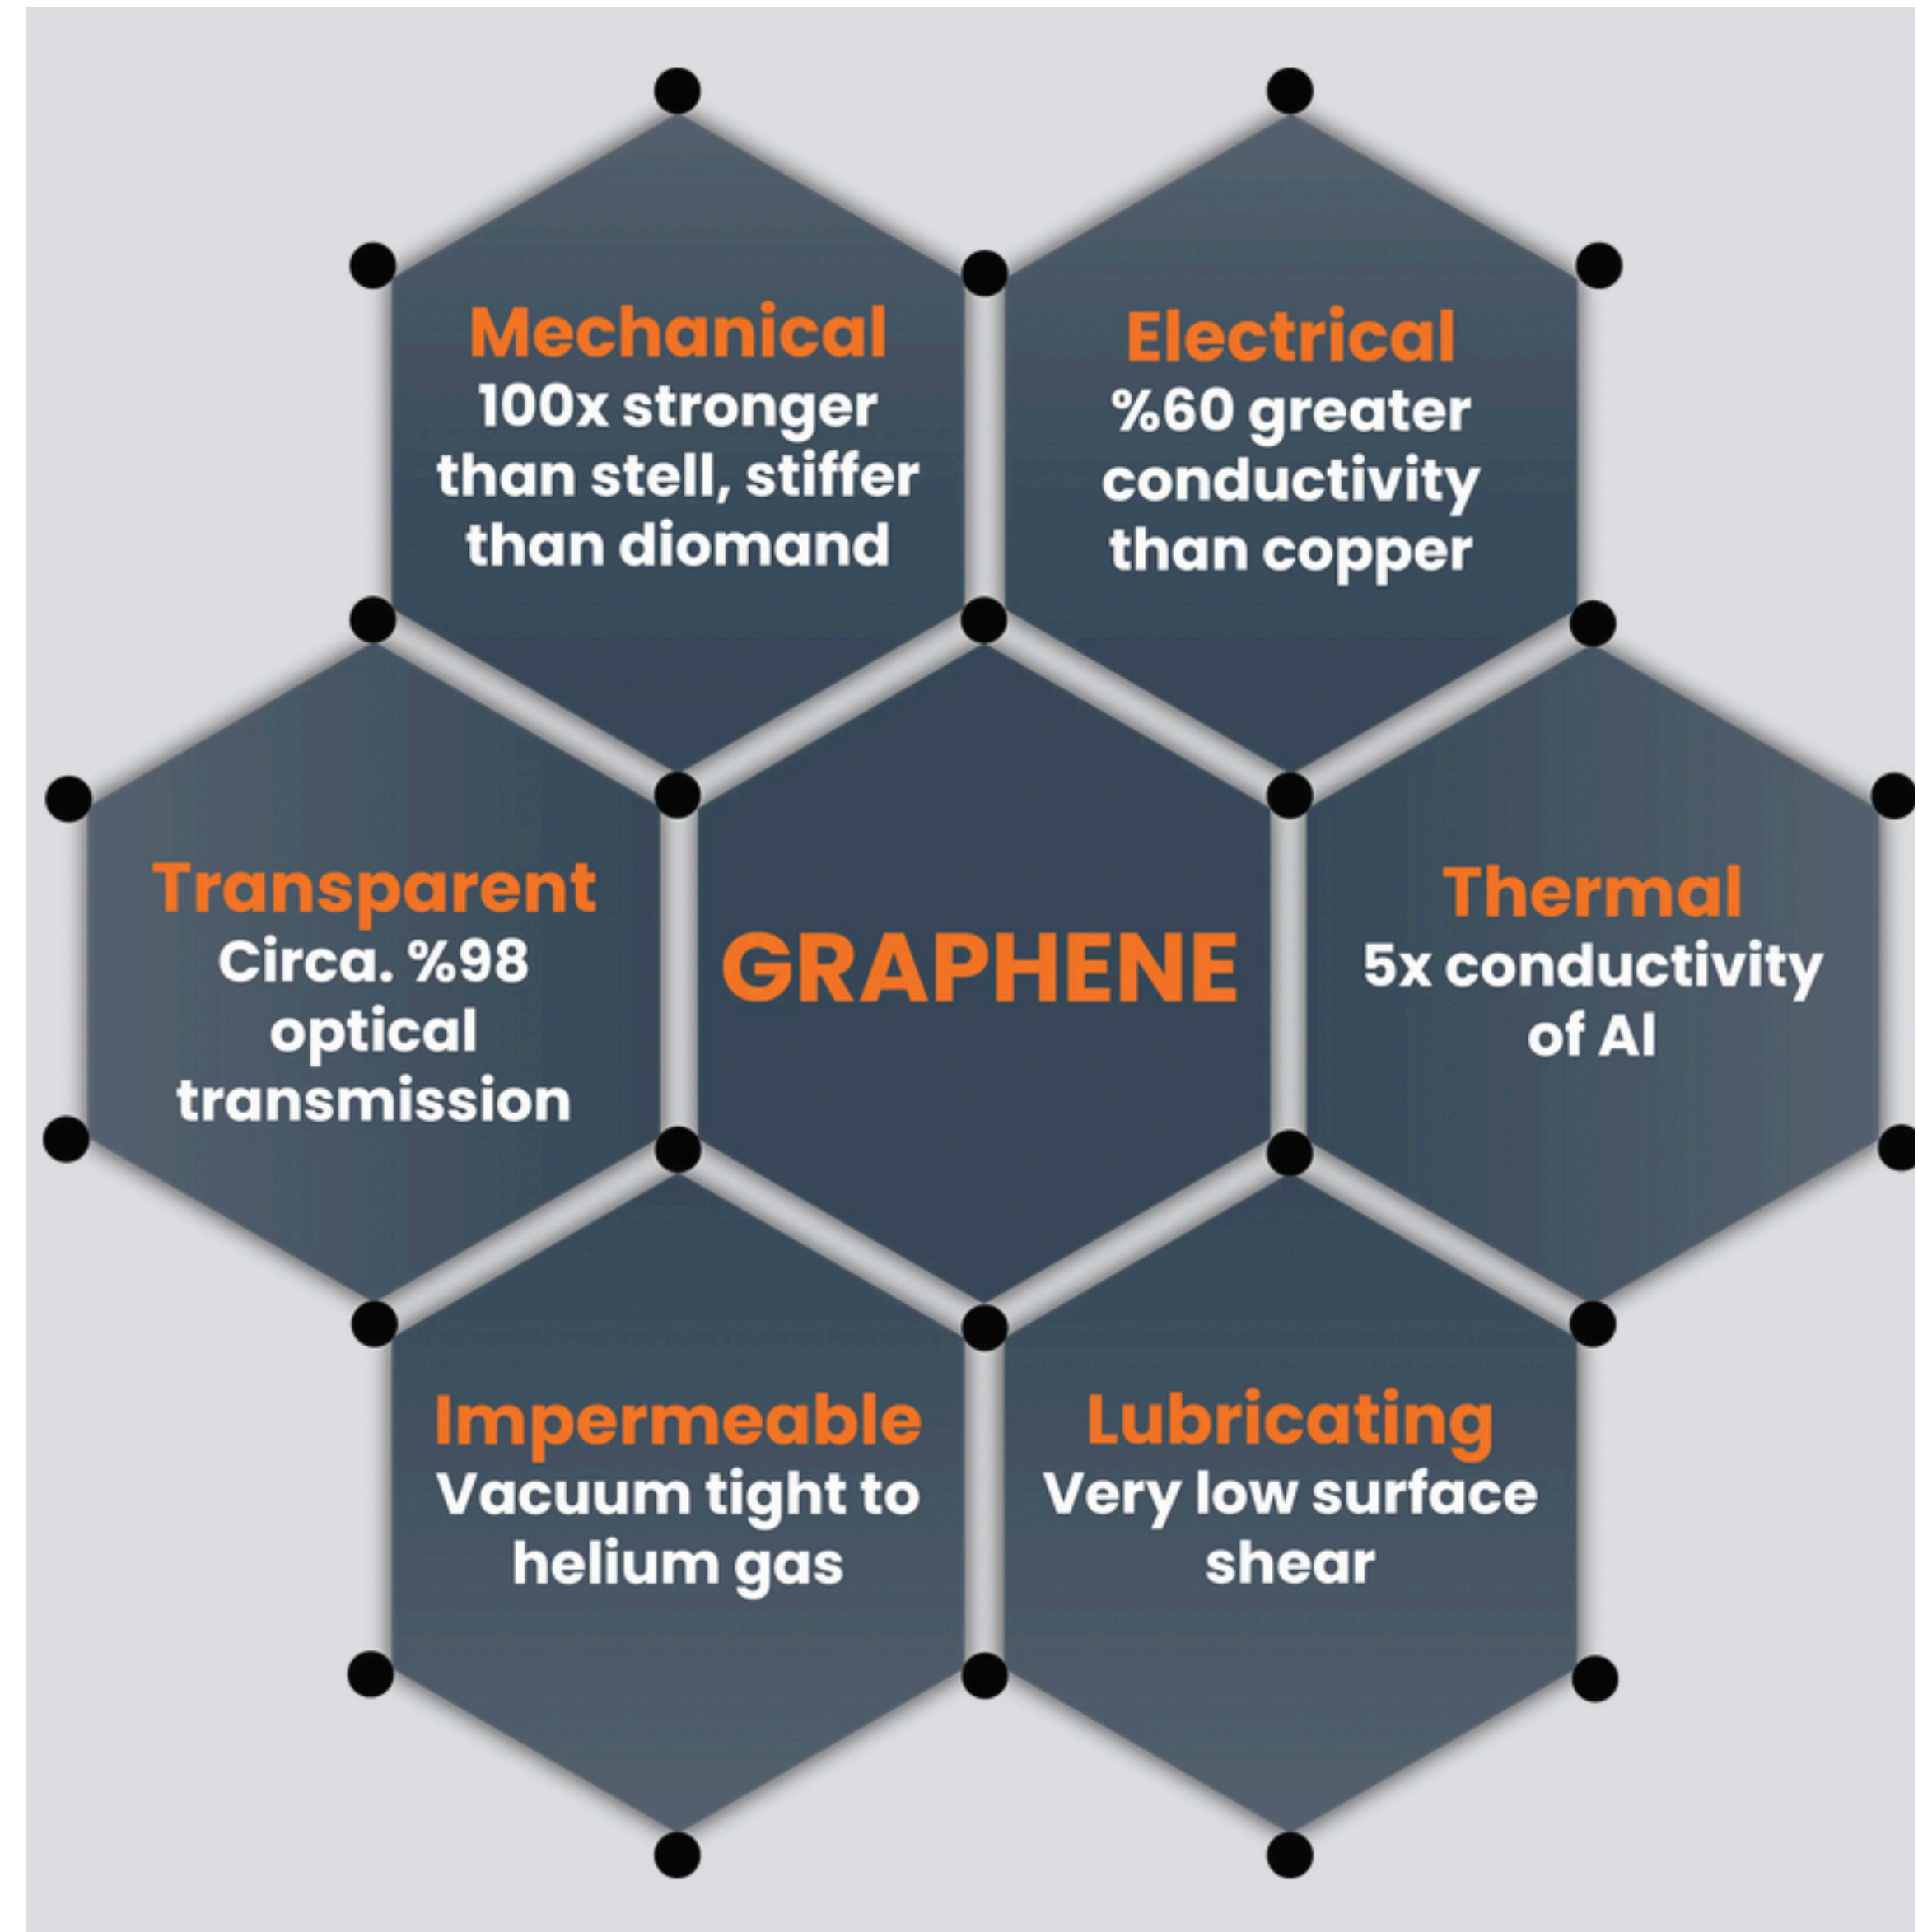

The green transition uses minerals

The graphene dream:

Add a little graphene to use less of everything else

Graphene stacking is a
challenge

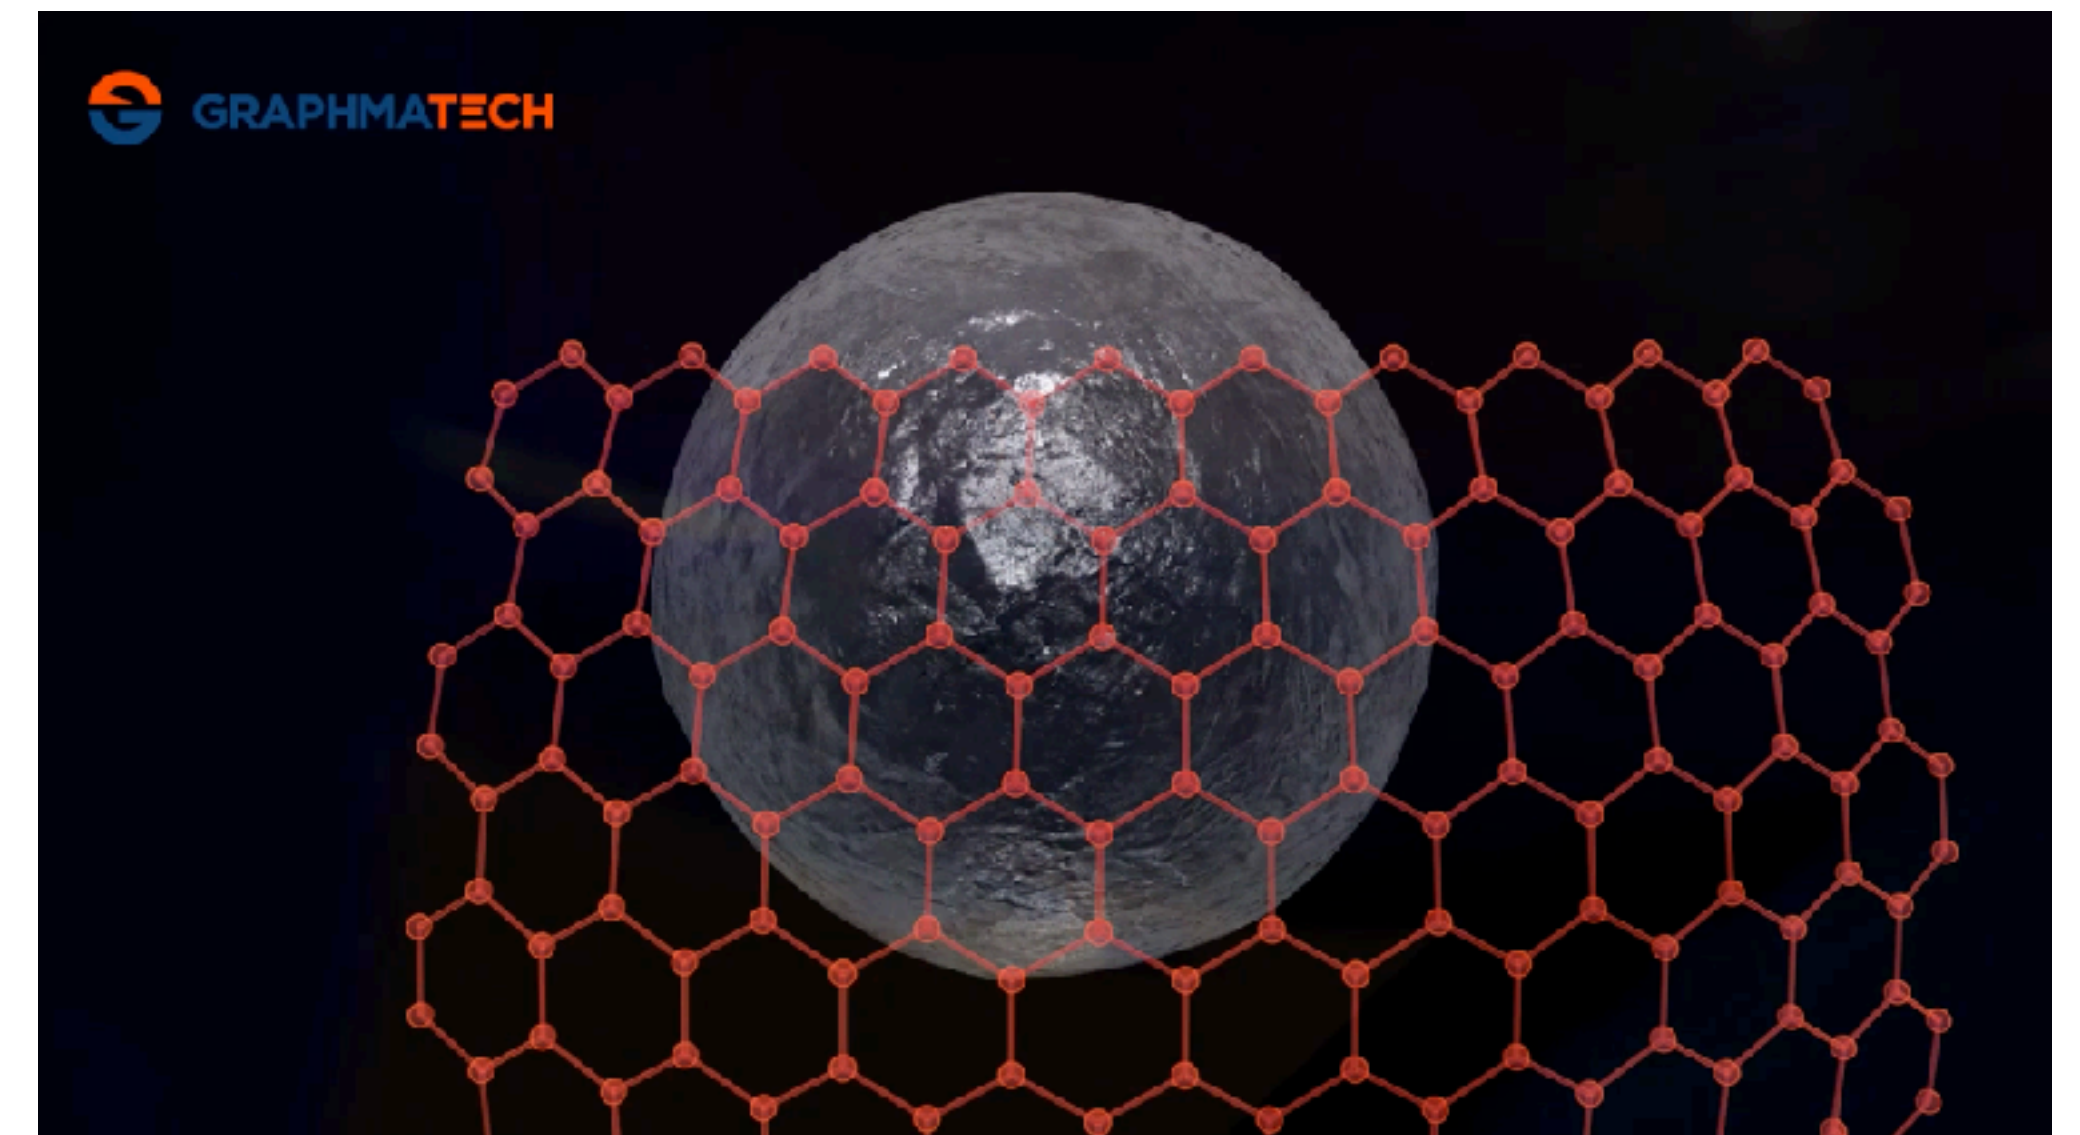

Stop graphene stacking

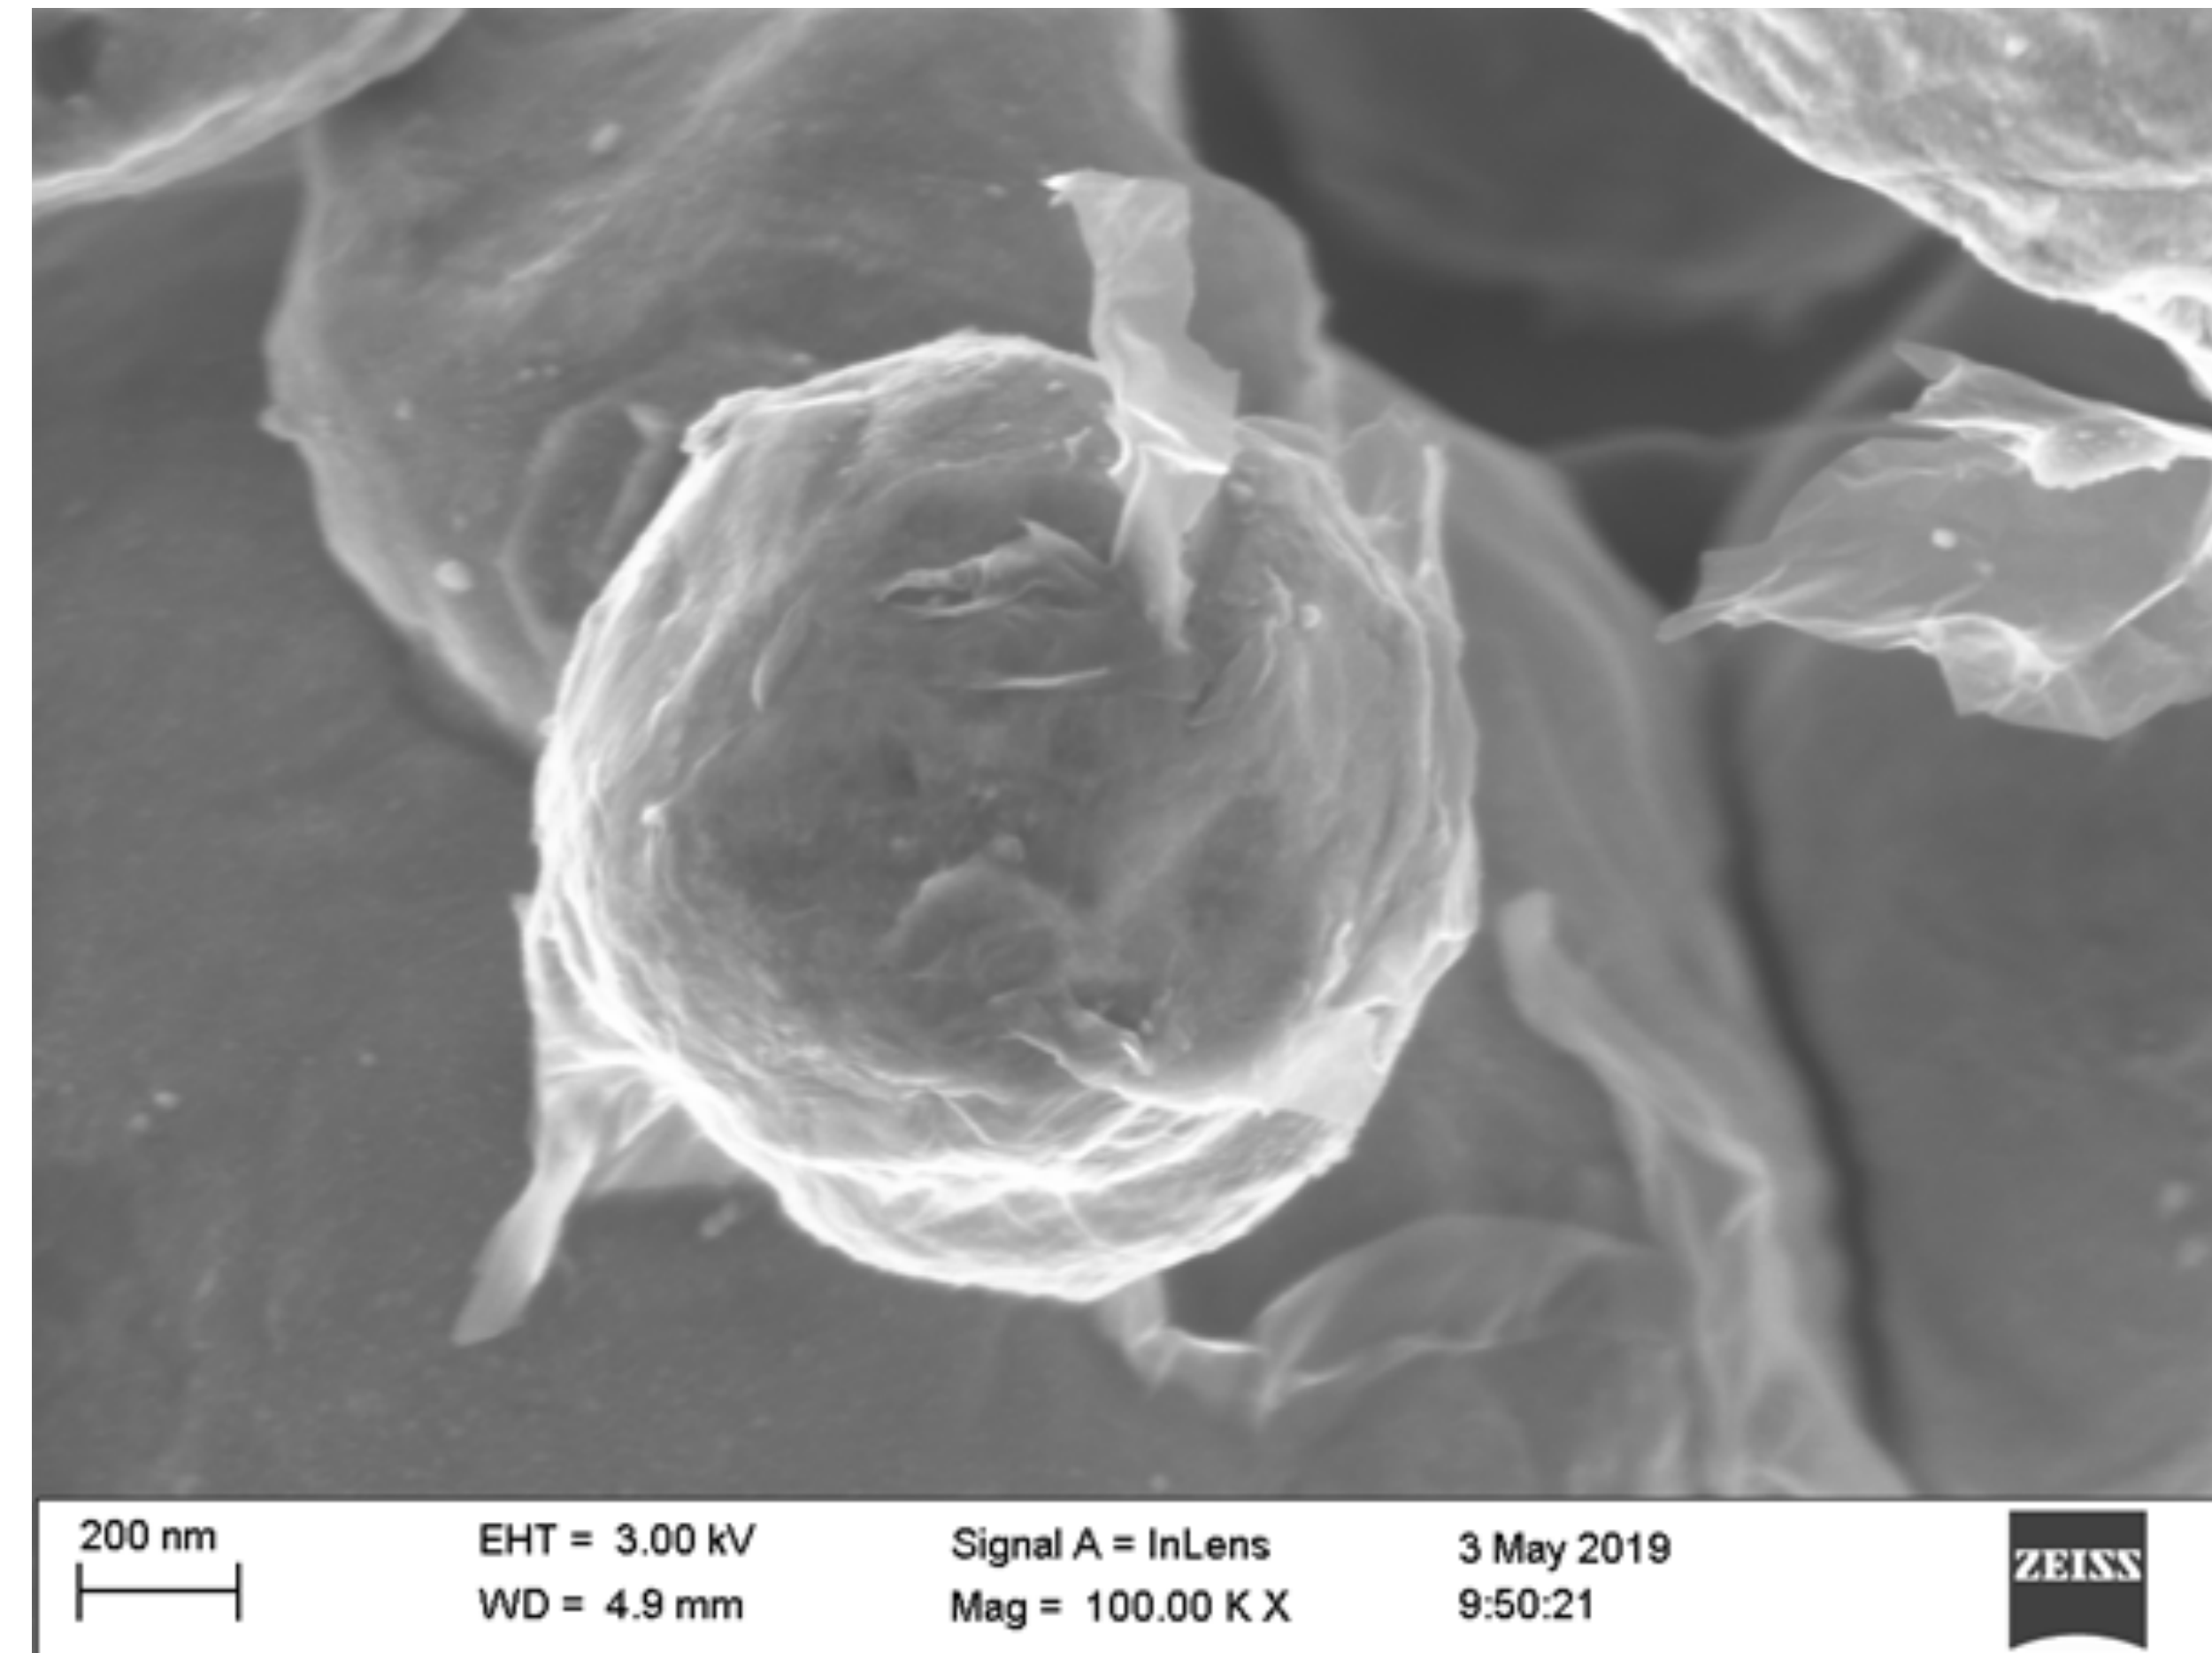

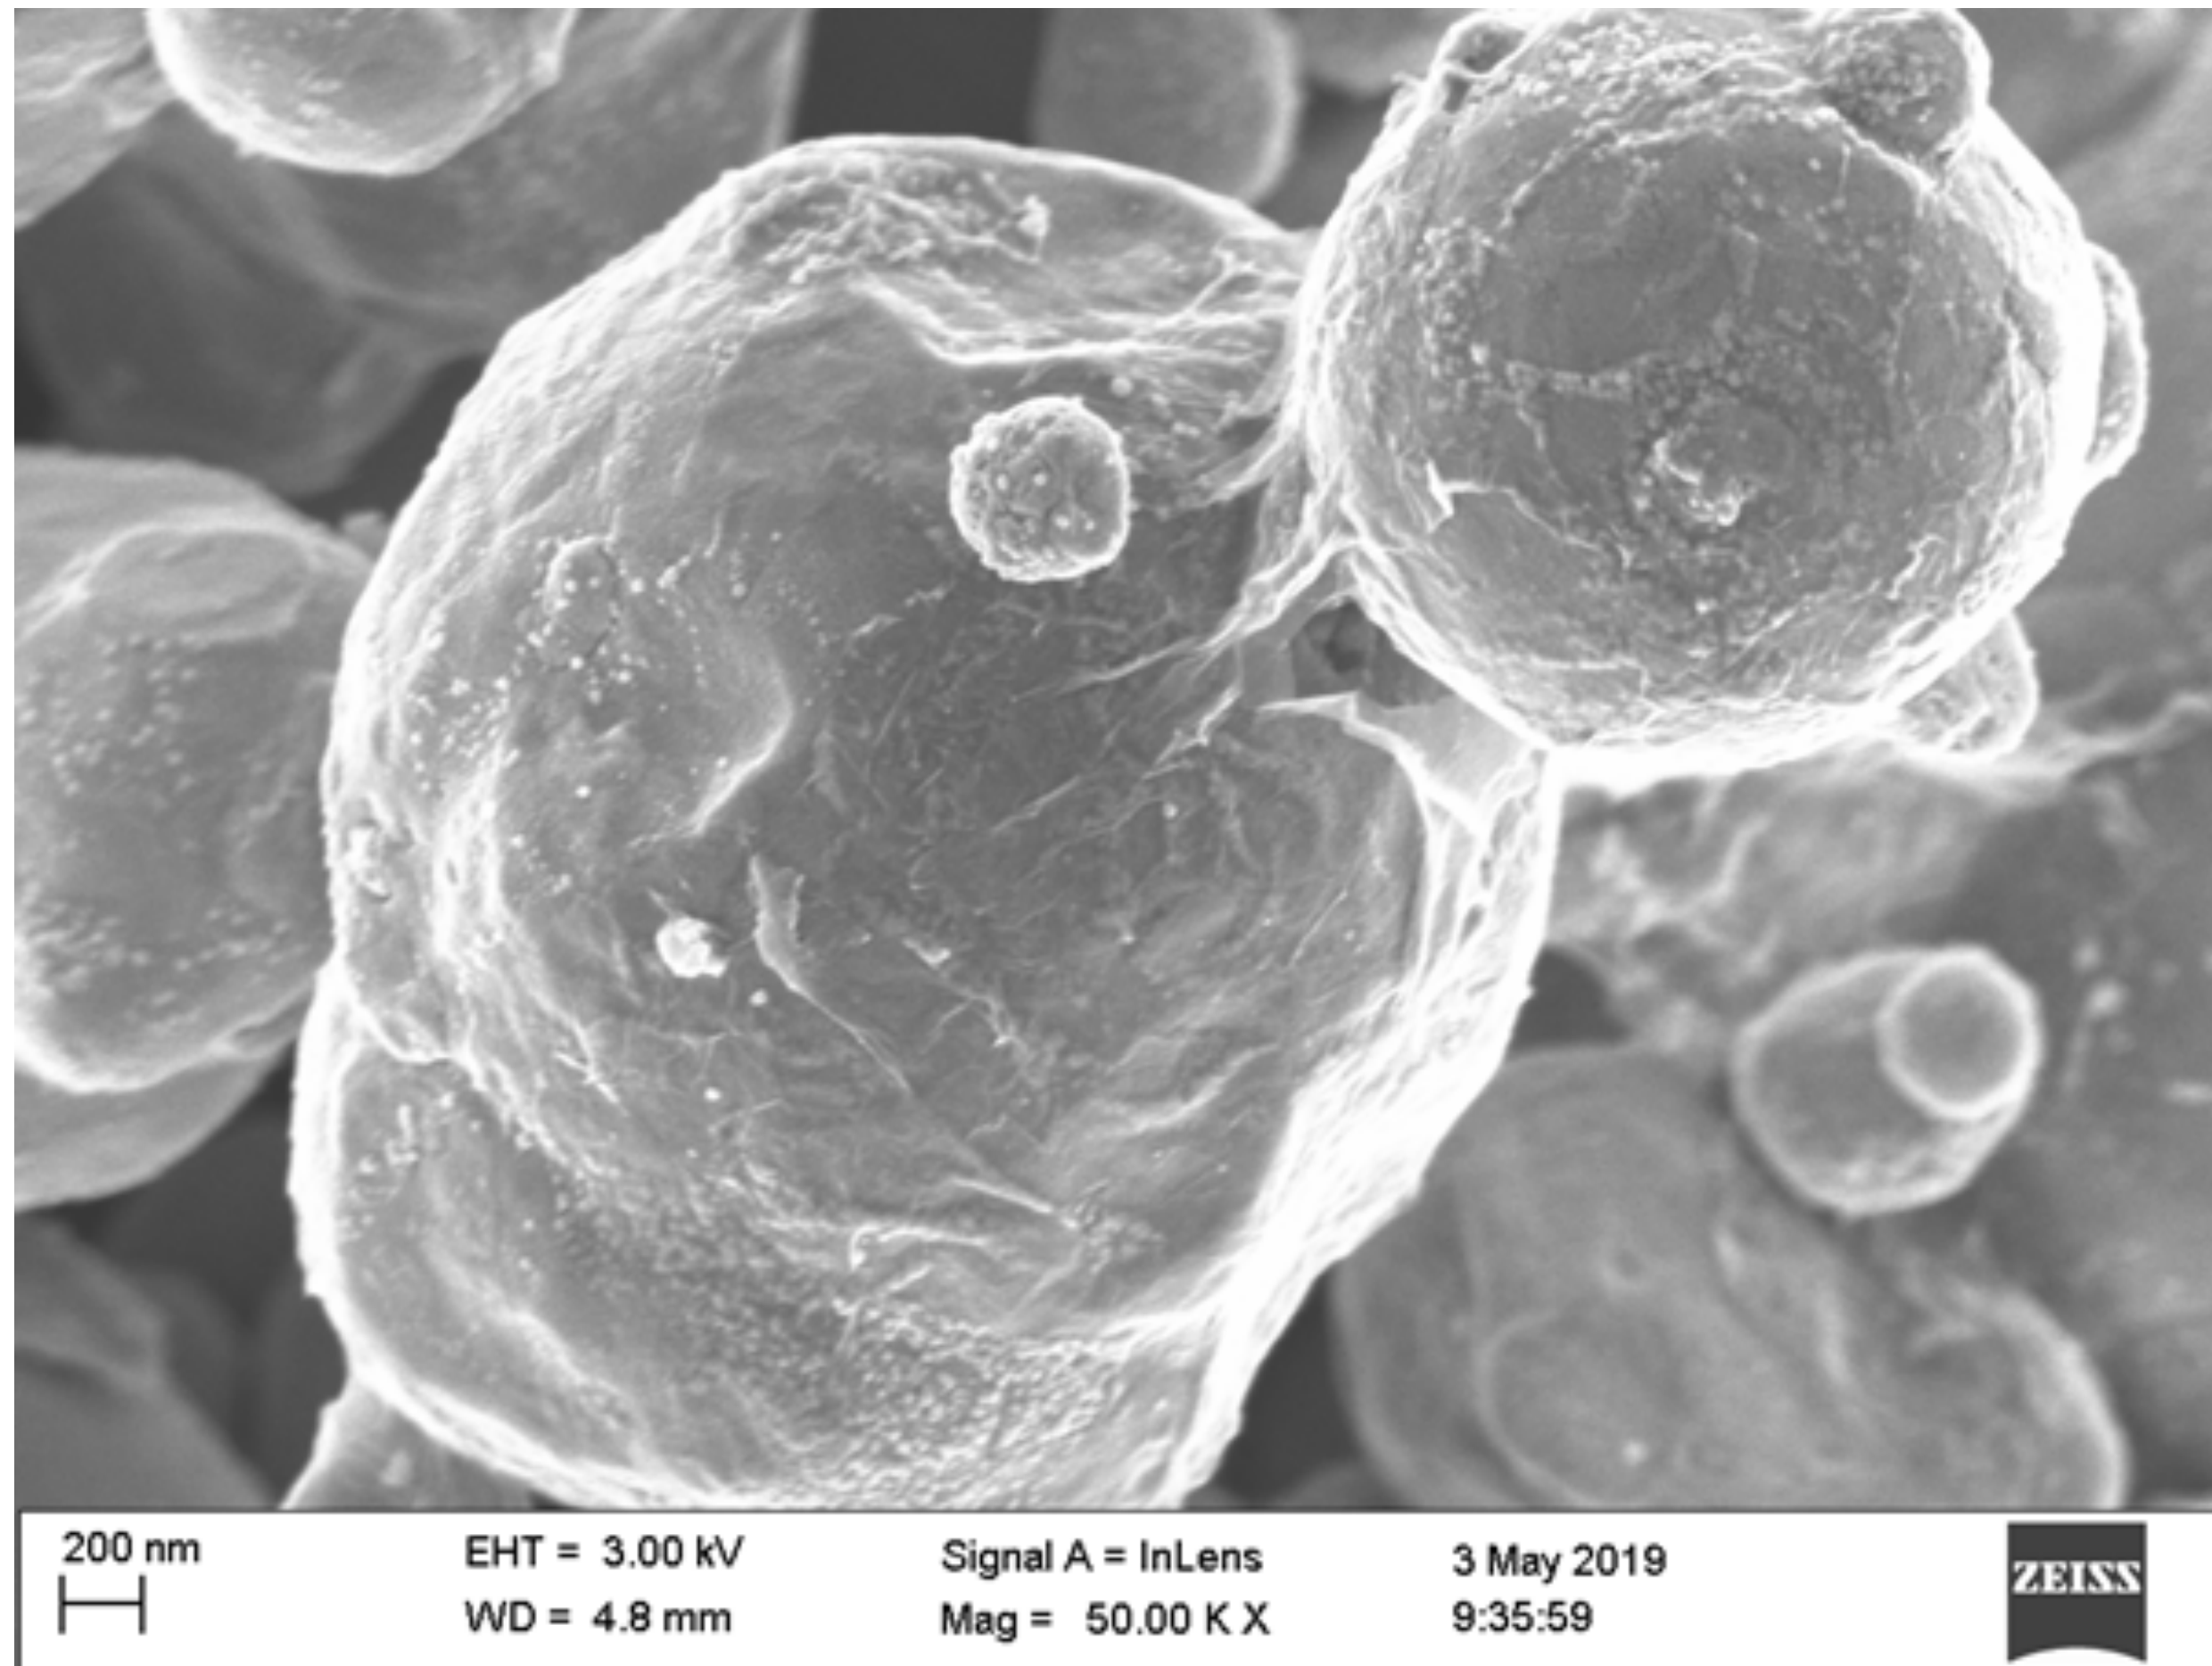

Coating powder

4 patents pending

Coating powders

Graphene composites

Silverbrytare - 30% mer konduktiv, håller 12 * längre

Koppar - bara tidiga resultat: 40% mer konduktivt

Polymer barriär för vätgas, 28% mindre läckage

Konduktiva polymerer för 3D utskifter: 5 ohm/cm

Hjälps vi åt, finns hopp
